RE: Close-out of Sanitary Landfill, Permit #55-02
Lincoln County, S.R. 1202

Dear Mr. Hull:

The final inspection for the subject landfill was conducted on April 3, 1989 by a representative from the North Carolina Solid Waste Branch.

It was determined that the site has been closed-out in accordance with the procedures outlined in the Solid Waste Management Rules. Please note the following requirements from 10 NCAC 10G .0510 Closure Conditions:

- *1. When a solid waste disposal site has been closed in accordance with the requirements of the Division, future necessary maintenance and water quality monitoring shall be the responsibility of the owner and/or the operator and will be specified in the closure letter.
- *Since the County of Lincoln is the owner and operator, the County of Lincoln will be responsible for future necessary maintenance and water quality monitoring at the site.
2. When a solid waste disposal site has been closed in accordance with the requirements of the Division, the permit is terminated. Any future disposal operations at the site will require a new permit.

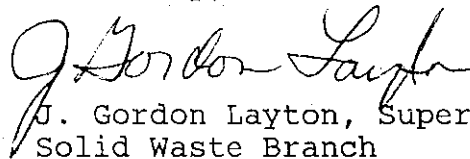

Water quality sampling is required for at least five years after closure. Specifically, one upstream and two down stream sample locations shall be designated by the County of Lincoln on a facility

map of the site. These locations will accommodate annual stream monitoring for parameters specified in the North Carolina Water Quality Monitoring Guidance Document for Solid Waste Facilities. This map shall be forwarded to this office within 30 days. At the end of the five-year period, the monitoring program will be re-evaluated.

If you have questions concerning this matter, please call (919) 733-0692.

Sincerely,

J. Gordon Layton, Supervisor
Solid Waste Branch
